

The High Uinta Back Country Horsemen

Chapter Activities & Work Projects

Projects in August 2010, May and June 2011

page 2 of 3

At the State meeting in May every unit was asked what they had planned for trails day. Mountain Ridge BCHU did noave anything specific planned.

The HUBCH had a fencing project planned at the Jordanell State park for that week end. So we invited them to help us with the fencing.

The day of the project 9 members of MRBCH and 7 members of HUBCH met at the State park. They met Dean from the park and went to work on the fence.

Three members of HUBCH stayed back to cook hamburgers.

About 4 hours later the crew showed up with all the repairs completed.

The state park folks were very happy with the work. Everyone was very hungry, the burgers did not last long. We all sat around and visited before heading home.

We want to extend our thanks to those of the Mountain Ridge BCH for all their good help! Dean said the project would never have been completed if we had not come to help them get the fence repaired.

So "Thank You" to everyone who helped. Another BCH project well done.
