Horsecamping

Gunlock—There is some area along the river where you can overnight w/ horses. No facilities, but water for animals. There is riding out from there going west. It's about a 30 minute trailer to the Red Cliffs Desert Reserve.

Directions: Take Bluff Street to Sunset going west. That is Old Hwy 91. Continue past Kayenta, over the river and go right at the split in the road towards Gunlock Reservoir. The camping area is JUST SOUTH of the reservoir—about 4 to 5 miles. There is a very large turnout on the west side of the road before the road starts up a very definite hill. (If you go up the hill you'll be at the reservoir and you've gone too far.) Pull into the turnout—you can walk back to the campsites and get the lay of the land. I recommend looking at the map <http://maps.live.com/?q=Gunlock%2C+UT&FORM=MSNH&mkt=en-US> to get your bearings.
